

WELCOME TO OUR SCHOOL

STUDENTS:

Aneja Pečovnik

Teja Mozgan

Mentor: Franja Ofič

ABOUT OUR SCHOOL

- It's pretty big in size but it makes you feel at home.

It's separated into 2 sections, one older and the other more recent.

The building has a lot of different rooms for different subjects and it has 2 gyms, one small and one big one.

Each is meant for different classes depending on which grade/class they are.

The school also has a library with many different varieties of books from well known but also underrated authors. We have a large cafeteria and a pretty big food palate.

There are 3 entrances, 2 mains ones and a side one connected to the gym.

Gym class is very fun when we go outside and play games but we also exercise inside a lot, it really depends on the weather.

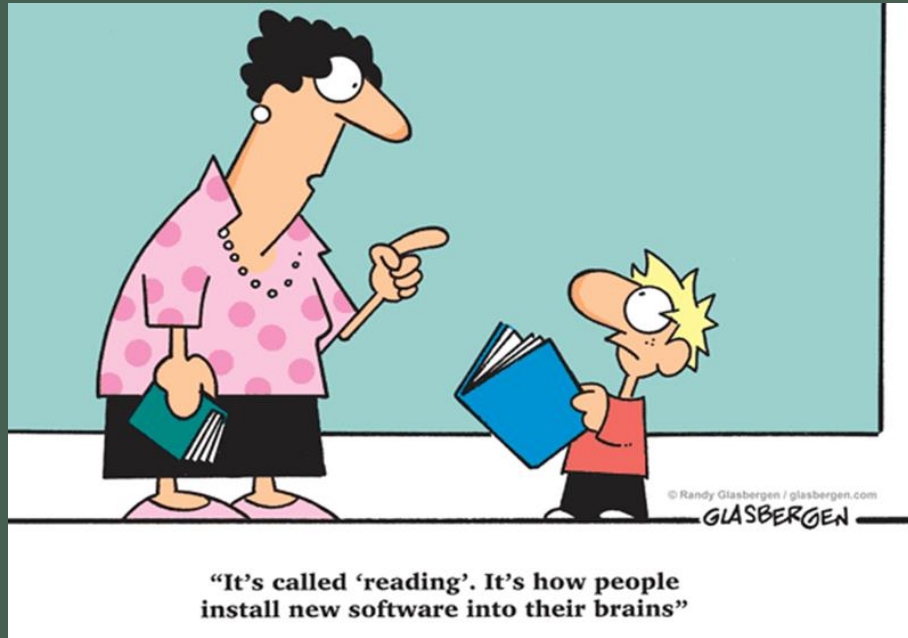

OUR EDUCATION SYSTEM

Our school has a room with computers for computer science, where we use fun and different ways to learn how to work with computers. From time to time teachers will take us there for subjects like geography or chemistry so we can solve exercises that can help us learn and understand the subject better.

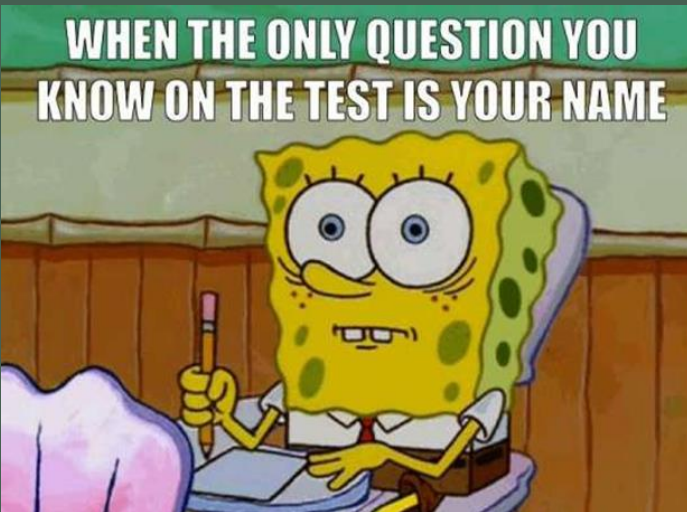

We usually switch classes depending on what subject we have but due to recent circumstances we stay in one class and teachers move from room to room.

Grading in our school goes from 5-1 with 5 being the highest grade and 1 the lowest. However, we all get a second chance to get a better grade if we failed the 1st time.

JOKES AND PUNS

The child comes home from his first day at school.
Mother: "What did you learn today?" Kid: "Not enough. I have to go back tomorrow."

Q: Why did the math book look so sad?

----->

A: Because it had so many problems.

FOOD, WORKERS AND TEACHERS

FOOD IN OUR SCHOOL

- Food in our school is good, thanks to our amazing cooks who prepare our breakfast and lunch. For breakfast we usually have some type of fruit, drink and the main course (bread of some kind, yoghurt, honey and butter, different jams,...). We also have pizza or hot dogs from time to time. In honor of the last day of school we have hamburger sandwiches. The palate lunchwise is very rich.

TEACHERS AND OTHER WORKERS

- We have a lot of teachers and other people who work for our school. There are one to three teachers for every subject in our curriculum. The teachers are nice and supportive of everyone and try their best to help us learn and explore.

INTERESTING FACTS ABOUT OTHER SCHOOLS

- The City Montessori School in Lucknow, India, is the **largest** school in the world in terms of number of students, with more than 32,000 students.
- The students in China receive **the most homework** in the world. At an average, teenagers do a whopping 14 hours of homework in a week. Consider yourself lucky, you don't have to!

- World's **oldest** school is in Canterbury, England. The King's School, as it is named, was founded in 597 AD.

- Kids in Japan are the most **independent** of the lot. They travel to school alone, clean their own classrooms and even carry lunch.

There are no janitors or canteens in the schools.

- World's **highest** school is situated in Phumachangtang, Tibet, at a height of 5,373 metres above sea level.

- Iran is one country where girls and boys are educated **separately** till the time they reach college.

Like I mentioned before our school wants everyone to feel welcomed, no matter where they're from, what language they speak and what race they are.

Thank you for reading about our school, hopefully you will have fun if you ever come here. :)
